Washington Items. WASHINGTON, January 2.—No official information has been received here confirmatory of the report from Madrid respecting an indemnity to be demanded by the Spanish Government in the case of the Virgioius, nor is it probable that any such claim will be presented, the adjustment of the questions involved having been arranged by the protocol of the represent tives of the two countries. If at any future time a bill of damages should be presented for payment, it would, there is good ground for stating, be refused on the principle established by the Geneva tribunal in the disallowance of indirect or consequential damages. Therefore it can be certainly stated that Spain will not receive any money whatever growing out of the transactions in connection with the Virginius, even if that vessel bad reached

The Engineers' Strike.

COLUMBUS, January 2 .- The striking engineers here still hold out notwithstanding hat the strike is breaking at other points. The real trouble here now is that the engineers know that certain ringleaders will not be taken back into the employ of the railroad company, and so they must stick together, hoping to enforce the employment of even the leaders. The railroad authorities have given notice that all who want their engines had better apply at once. The running of all the regular passenger trains has transferred the excitement to the freight

depôt, but no outbreak has occurred. PHILADELPHIA, January 2 .- Though no strike has occurred here by the Pennsyl vania employes as yet, the transportation of freight west is greatly impeded by the blockide of the roads in the western States, owing to the strike there. Trains of empty cars are being dispatched from West Philadelphia for points beyond Pittsburgh, but no loaded cars are leaving, and the trainhands are now only working half time. have charge of the Masonic Gift Concert have de- Passenger trains are leaving regularly, as are also the usual freight trains, for Pittsburg and intermediate points.
